DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: paragraph [0057] describes facets 70, 70a, and 72 in the bounded area. According to the figures 70a does not appear to be included in the bounded region with 70 and 72 (see figure 4).

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 5 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ogg (6,290,615). Ogg discloses a golf ball comprising a plurality of lattice members. The apex of the lattice members defines the outer surface of the golf ball. Each of the lattice members has a continuous contoured surface.

Allowable Subject Matter

Claims 1-4, 6, and 7 are allowed.
